9. Program implementation instructions

9.1. For training units

-The Faculty of Professional Management is responsible for reviewing and presiding over the compilation of course outlines for the basic knowledge of the industry, industry and major according to the correct credit volume of this program. Providing a list of textbooks, lectures and reference materials of all courses to the School Library and storing them in the Faculty office. At the beginning of each semester, coordinating with units of the School to implement the training plan.

-Assign lecturers with a master's degree or higher (in the same field or related major to the subject) to teach theoretical subjects, provide detailed programs for lecturers to ensure stable teaching plans.

-Academic advisors must thoroughly understand the entire credit-based curriculum to guide students in registering for courses.

-Attention should be paid to the logic of imparting and acquiring knowledge blocks, prescribing prerequisite courses for compulsory courses and preparing lecturers to meet the requirements of teaching elective courses.

9.2. For instructors

- When a lecturer is assigned to teach one or more courses, he/she needs to carefully study the detailed syllabus of each course to prepare lectures and appropriate teaching aids.

- Lecturers must fully prepare lectures, textbooks, and learning materials for students to prepare before class.

- Organizing seminars for students, focusing on group study and guiding students in writing essays, lecturers determine teaching methods; give presentations in class, guide discussions, solve problems in class, in the practice room, in the laboratory and guide students in writing reports.

- Pay attention to developing students' self-study and research abilities throughout the teaching and internship and practice process.

9.3. For students

Students should consult your academic advisor to choose courses that are appropriate for your progress. Students must study the lesson before class to easily absorb the lecture. Students must ensure enough class time to listen to the lecturer's lecture instructions. Be proactive in self-study and research, actively participate in group study, and attend all seminars.

Be proactive and actively exploit documents online and in the school library to serve self-study, self-research and graduation thesis writing. Strictly implement examination, testing and evaluation regulations.

Regularly participate in union and cultural activities - body - aesthetics to practice communication skills, understanding of society and people.

9.4. Facilities and equipment for teaching, practice and internship .

Theoretical classroom system with traditional equipment, equipped with additional teaching aids (projector).

The computer practice room is installed with software for basic computer training; the Law practice room serves to organize mock trials and organize discussions on legal topics; the Legal Consulting Center serves students to practice legal consulting skills.
